#### Welcome

Pledge of Allegiance  
Minutes Approval Motion: Marnae, 2<sup>nd</sup>: Carma, Vote: Unanimous

#### Comprehensive Guidance

Joy Benson

The calendar for January and February counseling activities was reviewed:  
Individual CCR's for Juniors will be on going until the end of January.  
The PHS Registration Booklet in progress will be on-line from now on. We will only print a classroom set and enough for the junior high students.  
The outreach for Latino students is slow moving but successful. There will be a college tour for parents and students this Wednesday at UVU. There will be a bus, dinner, and the tour.  
Parent/Teacher Conference, February 16, will be a big event, again. We will highlight student achievement and programs. There will be college tables, FAFSA help, food trucks, and scholarship and career information.  
The ACT Prep Class will start the first week in February. Sign-ups will begin January 23<sup>rd</sup>.  
The class will end just before the Jr. ACT Test on March 7<sup>th</sup>. A reminder that the test will be given on computers was given. The question was asked whether or not we should allow students from other schools to attend. Decision: Not until all of our students have had the opportunity and there is room.

#### Trustlands 2016/17

Ben Ford

Ben reviewed goals for this year and asked for ideas to add or subtract to the current plan. He explained there would be a more detailed budget coming out, because he can no longer move money without going through the district. The majority of the money is used for technology and lowering class sizes.  
There was a question about using the money for professional development, when professional development was n written into the goals. Jesse will check on this and let the council know.  
The question was brought up concerning capitol projects. This year the five projects turned in are: Water pipes/sprinkling system, Lighting on the stage, Renovating of some classrooms, the triangle grass space out front, and turning the old conference room into an office.

#### Other Items

Marnae Kelly

Carma suggested there be a place in the school where students can warm up food in a microwave.  
Ben will look into the possibility.  
The art work around the commons are will become an art gallery of student artwork.  
Report on the early morning, "0" period, classes. 7 were enrolled in financial lit first semester. 7 are enrolled in government and citizenship second semester. This will total 7.50 credits for students. Teachers like it, and more and more students will start to take the classes. The trial period should probably be more than a year. There was a feeling among members that the options were not very well advertised. New members did not even know about it. Marketing in the future will be a big factor.

\*Next Mtg: February 14, 3:00, Conference Rm.
